**Subject:** My Recomendations based on the CFTC Meeting on 25Apr10

---

1. I compliment the CFTC for holding the subject hearing, however as a silver & gold coin holder for over 10 years (75% of my retirement money is in these coins), I fear it may be too little, too late unless substantial changes are made to the existing procedures regarding position limits and the concentration in silver and gold.
2. I have worked long and hard to earn my retirement savings, now I am 80 years old and I see only that my retirement purchasing power is steadily declining substantially. For example, see graphs of Friday's (17 April), 24 hour spot silver and gold charts from Kitco. This is a common example of flagrant destruction of my retirement savings ( after 40 years in the aerospace & defense industry) which, for me is irreplaceable. Although it was "only" 1.6% down in gold and 2.7% down in silver (each within a period of less than 2 hours!). This timing is not indicative of mass selling throughout the day by the "little guys" but by the "big money" with one phone call!
3. I AM BEING ROBBED IN BROAD DAYLIGHT AND NOBODY IS DOING ANYTHING ABOUT IT!!!
4. I see the CFTC as my only hope to control this flagrant, criminal behavior. You are on the right path. Godspeed!!!

Thomas J. Dolan, BSME, Illinois Institute of Technology, 1945, MSEA, Von Karman Institute for Experimental Aerodynamics, Brussels, Belgium, 1957, MSAE, University of Southern California, 1963.

USAF single-engine jet pilot, FAA certified Aircraft Accident Investigator. Principal Engineer : Trisonic Wind Tunnel, NASA Apollo Command & Service Module, NASA Space Shuttle, NAA Sabreliner /T-39, Boeing 767, USAF Rockwell B-1 Bomber, USAF Global Positioning Satellite System and NASA Space Station Modules.
