Subject: Wall Street's Continued Manipulation markets, GOLD & SILVER

I saw the presentation make by GATA of irrefutable proof that at least one Wall Street firm, Morgan Stanley, and perhaps one more, has been, quietly with much stealth, selling paper with little or no gold or silver to support the presentations to buyers that there is gold and/or silver supporting each sale. By flooding the market with paper Morgan Stanley with the backing of the Federal Reserve have been manipulating prices of said commodities down and up. Morgan Stanley and others who are being signaled when to buy and when to sell are making fortunes while small/individual investors are losing. collectively, vast amount of money.

Some analysts have called this the largest robbery in the history of the world as this has been going on for many years. I beseech your committee to bring an immediate halt to this robbery. I am an individual investor who has been losing, unknowingly, on gold and silver due to the cabal of the "club" of Morgan Stanley friends. This is really outrageous. I am 70 years old in two months and I can't absorb the results of these criminal acts. I was hoping that my gold/silver investments would succor me in my old age. Please help.

Sincerely,
Ernesto Alaniz

PS: I have sent a copy of this to my Senator and Congressman. I will follow up with them with the hope that they can help your committee in curbing this criminal behavior by Wall Street firms that continues with no abeyance to this date. Incredible!
