Subject: Silver Position Limits and Concentration

Good Morning;

I would like to say thanks for the opportunity to comment on the issue of position limits for precious metals. In my opinion, the CFTC NEEDS to do the following:

- Establish a speculative position limit in COMEX silver (1500 contracts or less).
- Restrict all hedging exemptions, except to legitimate hedgers.
- Stop the concentration levels in COMEX silver futures that have been experienced over the past few years, particularly on the short side of the market.

These steps would go a long way towards righting this market.

Thank you for your time and efforts.

Sincerely,

w hadley
