**To:** Metals Hearing <metalshearing@CFTC.gov>  
**Subject:** JPMs and others' deceitful maipulations on silver(and also Au-) short positions

---

Dear ladies and gentleman, my complaint concerning the above mentioned subject I have submitted already to Mr. Gensler and his fellow-colleagues of the CFTC-Board on Dec. 29th last year. If the board is unwilling to deliver this message to you, please let me know and I will send ist to you again as my contribution to the present precious metals hearing. My final question for today is: Are you aware what it means, that e.g. JPM alone is "operating" with a derivatives -mountain of 80 trillion \$, misusing a great part of these derivatives not for insurance purposes, but for deceitful manipulation e.g. of the Au and Ag market? Is your opinion that this means "trading"? Sincerely Giselbert Grohe, Frankfurt, Germany
