**Subject:** no new regulations

---

I am strongly against you lowering the Forex leverage. All you are doing is hurting the little guy, but I suspect that is your intention. I have already started to use foreign brokers because of the last time you implemented new regulations. I guess you people will not be happy until there isn't a market left. Stop, as you say, trying to "protect" the investor. Let a man or woman be responsible for his own actions. Mr.Cheff
