Subject: Market Manipulation

Thankyou for the opportunity to comment on the past and current market manipulations within the precious metals. As a person that has followed the metals markets for the past 10 years it is refreshing to finally have a CFTC that is willing to make the tough decisions in order to do the right thing. Please establish position limits of no more than 1500 contracts in Comex silver in order to prevent concentration/manipulation in the Comex silver futures market.

Thanking you in advance for all your efforts as well as the transparency with which this issue is being addressed.

Sincerely,
Larry O'Toole
