**Subject:** Gold/Silver Price Manipulation Out in the Open ...

---

**TO THE CFTC:**

News on the Gold/Silver price manipulation scandal is being reported on the Internet on multiple websites now. Even some of the mainstream media is starting to report on this developing scandal. It is time for the CFTC to act and to protect the investor, as it is sworn to do. The SEC failed to protect us from the Madoff scandal. We do not want the same thing happening with the CFTC. See below for some of the latest reports on this price manipulation.

**Please set and enforce position limits for gold and silver [LONG and SHORT] on the COMEX before this scandal explodes in the financial markets.**

**TO NEWSPAPER REPORTERS AND EDITORS:** [blind copied on this email]

The mainstream media (MSM) owes it to the public to report on incidents, scandals and scams that may impact investors in the financial markets. MSM did not protect us from the Madoff scandal. Don't let the same thing happen with the price suppression scheme going on in the gold/silver markets.

Here are some of the latest reports from the Internet:

1. Manipulating Gold and Silver: A Criminal Naked Short Position That Could Wreck the Economy:  
<http://www.deepcapture.com/manipulating-gold-and-silver-a-criminal-naked-short-position-that-could-wreck-the-economy/>
2. Two US Dollar Signposts and Gold Silver Stealth (Chinese Press):

3. Interview with Ted Butler:

It is time for your paper to start reporting on this breaking story. We have "freedom of the press" in the USA - the press must use this freedom to keep us (the public and investors) informed. Otherwise we depend solely on the Internet for our news.

**Please make the public aware of what's happening in the precious metals market. We want to avoid another Madoff scandal in the financial markets.**

Thanks for listening.
