Subject: Input on Position Limits

Dear CFTC:

Is it not transparently obvious to you that illegal short positions are being increased massively by our government even now (after being exposed), in order to try to suppress the metals and support the dollar. Does JP Morgan Chase have the physical metals that they are shorting so HUGELY?? I don't think so. PLEASE DO YOUR JOB AS STIPULATED IN BRONZE ON YOUR BUILDING, and STOP this HUGE FRAUD!

A very concerned citizen
