Subject: Regulation of Retail Forex

To Whom It May Concern:

I would like to voice my opposition to the recent CFTC rule proposal that would change Forex leverage to 10:1. As a Forex trader this would definitely impact my trading strategy and capabilities, and force me to open an account overseas where I have better options for me as a Forex trader. I think this decision would put a nail in the coffin for all US Forex Brokers and force all Retail Forex traders in the US to move their money overseas to more unregulated brokers. Does the CFTC really want that to happen? I don't see any logic in this decision. Please reconsider.

Thanks for your time.

Regards,

Robert Harris
