Subject: Regulation of Retail Forex

Id # RIN 3038-AC61

In response to this proposal, What a Joke! We live in a FREE country, I think most people who trade forex understand the risk involved. Margins are the same for the rich and the poor, you can only win a trade if someone loses so lets keep the game the way it is. We are Free to choose and that's what makes it fun. Enough of the Regulation stuff already.
