Subject: JPM corroption with the gold/silver markets

It has now been proven that the gold and silver markets are corrupted by the big banks. JP Morgan specifically. And now the CFTC will do nothing. This has been suspectd for years that these banks are stealing the common investors money. Everywhere I look the USA govenment is corrupt and rotten to the core. I wonder how people on the CFTC can hold their heads up high each day knowing that they are not doing the work that they were entrusted to do -- PROTECT THE INVESTORS!

You have lost all creditbilty in my mind. Just like the Congress, President, etc, etc,. The USA has become a "banana republic" full of corruption and disgusting whores stealing money! A thief is a thief! Whether he robs a 7-11 store or the common investor. He needs to be behind bars. Why are at least 50% of the bankers in New York' Wall Street and 50% of the government employees behind bars? A thief is still a thief. Hopefully GOD will make justice in the end.

Why don't you just do your job and protect the system, so it can be operated in a honest manner with some sort of credibility? In the end the system will fail, if this continues, as will the country, you and I live in!!

Mike
