Thanks for taking the time to even read my comments, It seems to me that COMEX Silver position limits need to be adjusted down too 2,000 contracts to level the field. As far as hedging exemptions, limit those to legitimate heders. Even if I, held all the Gold & Silver I would make all the rules an that's not good. You know what happened to the money changers, God took care of them, stay on Gods side. Thanks Again.....Dan McKenna
