Subject: Precious metals hearing

Dear Sir;

Following the hearing of the 25th of March, the evidence shows the market is manipulated. Everybody and above all, nations security is at stake with this fraud.

You are now in the knowledge and must make use of this opportunity to halt this fraud by introducing positions limits in Comex for precious metals and no exemptions whatsoever admitted. The limit of contracts have to be very restrictive, the proof of the equivalent metals storage given for a certain number of contracts, following audits should be performed.

The existence of the CFTC is now directly linked to its credibility, you have to act quickly, we all need you and your efficiency.

Sincerely,

Michel Braud
