**Subject:** CFTC Public Hearing on position limits

---

To Whom it May Concern;

I would like to thank CFTC for the opportunity to comment on the issue of position limits for precious metals. Based on the public hearing recently I believe we should establish a speculative position limit in COMEX for silver of no more than 1500 contracts. We should also restrict any hedging exemptions from those limits to legitimate hedgers with legitimate hedgers having to be made known to the public. These actions should ensure putting a stop to the levels of concentration in COMEX silver futures that have been experienced over the past few years on the short side of the market. I appreciate the service you are doing for the citizens you work for.

Sincerely,

Bryan Eberhardt
