**Subject:** Regulation of Retail Forex

---

Dear Sir:

I would like to express my strong opposition to the new proposed regulation **RIN 3038-AC61**. I think we already have enough government regulation and control over our lives and certainly don't need any more. I am a small trader and the new regulations would make me change my account to London or some other foreign exchange. Please, no more interference in our private lives.

Thank you.
