Subject: Speculative Position Limits

Honorable Officials:

I am a retired high school Chemistry teacher who has followed the precious metals markets for over 20 years. I have seen the increasing necessity for Speculative Position Limits in the precious metals, especially in the silver futures market.

I urge your Division of Enforcement, in the light of many recent developments and startling revelations of fraud, deception, misrepresentation and manipulation, to pursue strong regulatory oversight.

I suggest position limits in silver of 1500 contracts, with only legitimate exemptions permitted.

Thank You,

Robert L. Taylor
