Subject: Regulation of Retail Forex

Ref: RIN 3038-AC61. Please leave the leverage requirement the same as it is now. If you change the requirement you will be putting me and thousands of forex traders like me out of business. We can not afford to have 10:1 requirements. Trading the forex is hard enough now. Don't mess us little traders up. We are American citizens that can think for ourselves and don't want the Federal Government ruining our business. Leave us alone

Thank you, Robert Phillips 770-277-8190
