**Subject:** Precious metals position limits

---

Gentlemen:

The time has come to end procrastination and to act decisively. You have been given explicit evidence of fraud in the precious metals markets. Please end your corrupt collusion with the Federal Reserve and do what you were appointed to do - safeguard the public interest by setting position limits for gold and silver.

If you feel unable to act due to those external pressures, then at least publicly say so, and resign.

Robert J. Lewis, 68338 Santiago Road, Cathedral City, CA 92234
