Subject: Regulation of Retail Forex - RIN 3038-AC61

Thank you for allowing me to comment on this proposal.

I would prefer that the leverage of 100:1 remain in place for the retail Forex market. I am very responsible about the use of leverage and feel that 100:1 is very fair. I also think all traders should be able to determine the amount of leverage they feel comfortable with, but am very comfortable with an upper limit of 100:1.

Thank you for your time.

Best Regards,
Richard Myers
