Subject: CFTC proposal - Forex leverage from 100:1 to 10:1 for all NFA and CFTC regulated Forex firms

To whom it may concern,

I am writing to ask you to consider the plight of the small young investor.

I have a US Forex trading account.

I am disappointed and can't believe the CFTC would even consider doing this!

My funds committed to this area are limited in scope.

I would not be able to participate in this market if this rule change is instituted.

This policy, if implemented would be exclusionary.

It seems to me, the rule is designed to help the elite, not an up and comer who is trying to make it in this world!

Maybe that is the CFTCs objective, suppress the small guy?

If you must; put limitations on extremely large institutional traders, but please don't put these limitations on small traders.

Really it would be most appreciated if you would not implement this proposed rule change!

Kindest regards,

Edgar Burton
