Subject: COMEX Silver Position Limits

Dear Sir;

Thank for holding the previous hearing on position limits for precious metals and the the opportunity to comment. It is my strong urging for the Commission to adopt a speculative position limit in COMEX silver of no more than 1500 contracts. Please restrict any hedging exemptions from those limits to legitimate hedgers.

I am only an individual, but have a substantial portion of my life savings in precious metals. During the past several years, I have watched the value of my holdings fluctuate wildly due to the extreme short positions which have been allowed to be placed by just a few large banks. Please **stop** the levels of concentration in COMEX silver futures that have been experienced over the past few years on the short side of the market.

Sincerely,

Bradford J. Brady
Richmond, VA
