Subject: Regulation of Retail Forex

RIN 3038-AC61

Regarding 1:10 leverage

After all regulations, many brokers has moved customers to UK offices. 1:100 is a standard case for forex. If you really force to reduce 1:10 leverages, US brokers totally will loose their customers.

I exactly will have to move a UK broker. Or I'll advise my broker to open UK office.

Thanks
Cengiz Balta
