**Subject:** Position Limits

---

**Sir,**

**Thank you for holding the recent hearing on position limits for the metals market, and this opportunity to comment. I respectfully request that a speculative position limit be established in COMEX silver of no more than 1500 contracts, and that the only exemption be allowed for legitimate hedgers. I believe that it is vital that we stop the levels of concentration that have been allowed to accumulate in the last few years in COMEX silver futures. It is not a free market when any one institution, or group of institutions, are allowed to "set" the price.**

**Respectfully,**

**Jeanna Adamo**

**Carlsbad, NM 88220**
