**Subject:** Position Limits for Precious Metals

Dear Sir:

Thank for holding the hearing on position limits for precious metals. Based on the evidence presented I think it's important to limit speculative positions in COMEX silver to no more than 1500 contracts and to restrict any hedging exemptions from those limits to legitimate hedgers. Putting an end to the current levels of concentration in COMEX silver futures on the short side of the market is important to the integrity of these markets.

Sincerely,

Henry B. Gross
