Subject: CFTC Hearing on Limits

Dear Sir

Thank you for allowing the public once again to comment on the position limits of precious metals

The fraudulent and criminal activity of 2 big banks in the market, is common knowledge and the public depends on you to safeguard their interests

Therefore it is essential for you to establish speculative position limits particularly in Silver, and to restrict any exemption only to legitimate hedgers.

Now more than ever before, in the light of these recent revelations is it critical for you to stop the levels of concentration in the Comex Silver that we have experienced over the past few years in the short side of the market

I repeat , the public depends on you and NOW is the time to stand up and be counted

It is with great expectancy that I look forward to positive results

Yours Sincerely

SAM TURECKI
