Subject: Regulation of Retail Forex

Please Agency People , Please do not alter the amount of the leverage of the trading percentage of the 100:1 to the stupid proposal of 10:1 under RIN 3038-AC61 doesn't our country have enough problems with an already shrinking value of the US dollar . This Proposal will only hurt the hard working citizen from getting ahead . Please don't meddle in a market that helps keep our economy more fluid. We don't need more socialism just plain good ole common sense. Just leave it the way it is. Thanks, Jeff Oram
