Subject: free silver

Dear Sir,

Thanks you for your public hearing last week on position limits in precious metals trading. Please continue now to act upon what you know. Establish speculative position limits; restrain hedging exemptions and stop the short side concentration of silver and gold. And finally, do something about the information supplied you by whistleblower Andrew Maguire about how JP Morgan manipulates gold and silver. Please, help restore honesty to our markets and our country.

Thanks

Larry Miceli
