Subject: Position Limits for Precious Metals

Dear Sir;

I would like to take the opportunity to comment on the issue of position limits for precious metals. I believe that it is very important that speculative position limits in COMEX silver and gold contracts be established. I think it is also important to restrict hedging exemptions from those limits to legitimate hedgers. The levels of concentration in COMEX futures (particularly silver short positions) that have been ongoing must be curtailed so that a free market can exist.

Thank you,

Dave W. Currie
