Dear Sir- I hope and expect for you to soon be inundated with e-mails very similar to this. I also expect there to be very few requesting the status quo. I feel while there is much to say I will stick to the point. Please, and I adamantly request for you to, establish position limits in COMEX silver and restrict hedging exemptions to legitimate hedgers. Please stop the high level of concentration of the naked shorts. In a world tumbling head long into institutional dishonesty it is increasingly difficult for honorable men to muster the courage to be honest and honorable. Seek the respect of your children rather than the powers that be. I believe you all are up to the task. Incidentally, I recently e-mailed Mr. Chilton and promptly received a personal response. My God did I have fun bragging about that to my wife! My 10 year old was less impressed. Good luck and God bless... Brad Coyer, OKC,OK
