Subject: Leverage Regulation

Hi,

My name is Toby. I received a letter from my broker. I was informed about a new regulation that would affect my leverage in the forex market. Right now I receive 100-1 buying power. The leverage is significant to me. I would prefer to keep our buying power the same. I know regulations are necessary, however a lower leverage would knock me out of my business. I would be in favor of a 1,000-1 leverage but not lower than 100-1.

Thank you,

Toby Hughes
