Subject: Precious Metals futures

dear Sir,

Thank you for investigating the problems of position limits for PM's.

I ask you to limit speculative position limits in COMEX silver and stop the concentration in the COMEX short silver futures. Excessive speculation and concentration, undermining the liability of the COMEX futures market, is in my opinion so dangerous for the financial system in the world. Your responsibility in this matter reaches beyond imagination. May I wish you a strong and honest judgement.

Best regards,

Dr Bruno Vermeersch
