Dear Sir

I want to thank you for holding the recent meetings regarding position limits in the Comex silver market. I strongly encourage you to establish position limits in this market in order to control the concentration of short positions that have controlled this market for too many years. It is essential for free markets that any attempts to control via, concentration, be eliminated and the evidence supports that over recent years the short side of the markets has been controlled due to the lack of position limits. Please restore the free market by establishing position limits.
Thank You

Jim Howard
