Members of the CFTC:

I am a retired dentist. Silver(silver amalgam) and gold(crowns and inlays) hvae been an integral part of my 42 years of practice. I have purchased precious metals as an investment and safety net. No speculation, as I cannot afford the risk of losses. You are considering changes in the present limits of options. I trust that you will continue your investigations and your decisions will be based on the best interests of individual investors such as myself. I am grateful that at last we have members willing and able to address this long standing problem. Thank you. Dr. Henry m. Chakoian.
