**Subject:** Silver price manipulation

---

Sirs,

I am a UK investor who has been very concerned at the price manipulation which has adversely affected the precious metals markets, particularly the Silver market, for many years now. I understand that several of your members are recent appointees and I hope that your committee may finally respond to your mission statement to protect against such practices. The big banks have been getting away with this manipulation for long enough and may I be permitted to say ENOUGH IS ENOUGH

Thank You

Keith Rodgers
