Subject: proposed change

Hello,

I am contacting you to voice my opposition to the proposal that would reduce the leverage to 10 to 1 for retail forex traders. This will eliminate most retail traders or at the very least force them to use brokers in other countries. It also negatively impacts brokers, signal providers and others who rely on the retail forex traders for their business. This change would set the forex market back 20 years to when individuals couldn't even trade forex. Please consider this proposal very carefully as it holds many peoples' economic futures in the balance.

Sincerely,

Brad Lindstrom Sr.
