April 14, 2010

Dear Mr. Secretary -

I'm writing to voice my support for the creation and enforcement of position limits on precious metals. Please establish a limit of 1,000 contracts per position of silver. Please restrict any hedging exemptions from this limit. You and the only ones who can correct and stop the manipulation of silver and gold prices by stopping the concentration of large, short positions that have been held, naked, the past few years. I believe a large bank, (who will not come forward nor be identified) are manipulating and corrupting the metal price. They are doing this to gain unfair advantage in the market place. By creating small investors, (naturally make - class) this is another asset grab by the big banks!

Please stop them. Thank you, Kelly Ann Smith

This is summer! This is summer!
