**Subject:** Regulation of Retail Forex

---

To whom it may concern,

I do not agree with the proposal regarding RIN 3038-AC61. This proposal does not appear to be in the best interest of the trading community.

The results will further drive US based traders to foreign companies or any onboarding source that do not adhere to your regulation requirements.

The proposal by CFTC will remove the trading opportunity for many Americans. With the other restrictions of margin calls at 50% equity, a trader must deposit more than \$2000 just to trade 1 lot. The profit potential also reduces interest in the currency markets.

What is the intent of such a proposal?

Regards,  
Brent
