Subject: Regulation of Retail Forex

RIN 3038-AC61

I want to comment on the proposed regulations, stated that : "leverage in retail forex customer accounts would be subject to a 10-to-1 limitation"

I really believe in giving me the freedom and right to choose the amount of leverage that is appropriate for my individual risk.

So i really disagree with this proposal and i hope you don't rely this proposal as it will restrict my trading.

Thanks for receiving our comments.

Yours, Ahmed Hatem.
