Subject: Regulation of Retail Forex

CFTC (RIN 3038-AC61) :

I respectfully ask that the provision to regulate the maximum leverage be removed from your your current proposal. Mandating a 10:1 maximum leverage will only force traders like myself to move out of the country as trading is my lively hood, and this provision would severely cripple my ability to earn a living. The wonderful thing about Forex is that it can be done from anywhere in the world which means I am NOT anchored to live within the US.

Please remove this provision!

Regards,
Capt'n Calico
