Subject: Regulation of Retail Forex

Dear CFTCV,

I am very much against your continued efforts to regulate how much people have a right to risk. That is at the heart and soul of all Americans to risk great and get rewarded or to risk little and get rewarded accordingly. If you pass

I am talking about certification number RIN 3038-AC61 and I am very much opposed to you trying to regulate the amount of leverage that people choose to use.

Dale Nishimura
