Subject: proposed new CFTC margin rules

To whom it may concern,

The new proposed margin rule of 1 - 10 as opposed to the existing 1 - 100 would make it impossible for me to trade in a US account as I regularly trade at margins of 1 - 20 to 40.

If this rule went into effect I would have to transfer my main acc with "MB Trading" in California to a smaller account I already have established in Great Briton.

This would essentially put most US Forex Brokers out of business.
