Subject: 'Regulation of Retail Forex'

Stop limiting my leverage! I want the right to choose my risk appetite. How dare you tell me what you think my risk appetite should be. I want the ability to choose my leverage! I used to have 200:1 leverage but you intervened and took it away from me. Now you're threatening to take away my 100:1 leverage too? STOP.

I want to choose my risk!

You are becoming way to involved... for the wrong reasons.
I am getting angry by your involvement.
