Subject: Regulation of Retail Forex

To: *David Stawick*

David,

10:1 is very bad rule, Why would you destroy Forex trading in USA? Nobody will trade, everyone will go and open accounts in different countries.
All the money i make on my trading in Forex market, I pay taxes to IRS.. If this happens, I taking my money offshore!!!! and I won't pay any taxes on Forex trading at all !!

Very dumb thing to do. It's easy to sit in the office drink coffee and make up rules and laws. Think about before you make this law!!
