OFFICE OF THE
SECRETARIAT

To Chairman Gary Gensler:

The ongoing record climb of oil/fuel prices in our country is having an extremely detrimental financial effect on every person, business, and commodity in the State of Connecticut and in the nation. These serious fuel costs are being passed onto American citizens in households, cities, towns, and businesses.

A quote reported by the Northbridge, Massachusetts Town Manager, Theodore D. Kozak, has summed up neatly the results of the effect of this increase by stating, With the rising cost, the towns and cities in Massachusetts, as well as those in every other state in our country, are straining to maintain their basic highway, water, sewer, police, and fire departments. This also impacts the maintenance of ambulance service, busing for children, and the upkeep of schools.

Gas stations and heating oil distributors, food processors and distributors, clothing manufacturers and retailers, are all experiencing dramatic increases in energy costs. All types of transportation, air travel, passenger trains, trucking for food and commerce, not to forget household energy bills, are being affected by this crisis.

This situation is squeezing the lower income families of Connecticut and nationwide to feed our children and elderly less and encourage struggling people who want to work to just give up and the middle class families are now becoming lower income families.

I am asking all American citizens to help by either calling, writing, emailing or faxing your United States Senators, Representatives in Congress, and the Commodity Futures Trading Commission. Addresses below:

It is imperative that Congress makes certain that all efforts are being made through the Commodity Futures Trading Commission to protect the American people from market manipulation during this period of record prices for groceries, energy, and everything bought at stores for daily living.

God bless us all in this endeavor,

In Deuteronomy 6:18 we are enjoined to "Do what is right and good in the Lord's sight so that it may go well with you." Further in verse 25 we are assured that "...if we are careful to obey this law,...that will be our righteousness."

God bless us all in this endeavor,
