**Subject:** Leave leverage alone!!!!!!

---

To whom it concerns:

First of all it concerns ME. Stop trying to regulate everything. Traders are smart enough to understand risk and accept it if they choose to do so. We do not need you or your boss to watch over us! I would like to tell you that you do NOT know everything, as you appear to think you do. WE THE PEOPLE want to be left alone to make our own decisions without your approval and unwanted "assistance". We understand what we are doing, and this may come as a shock to you, but we know what you are doing too! And we don't like it!!!! We want you to leave us alone!!

You have already killed all the jobs in this once great country, now you want to make it harder for a person with a little incentive to make a living for themselves.

Your subject

Dennis McDowell Jr.
