Subject: Leverage Proposal

Dear Secretary,

Please, proceed with the changes to limit leverage in such accounts such as Forex and others. I have been devastated financially when I started trading on Forex with 100:1 Leverage. Upon request, they increased to 200:1 leverage. I was not aware of my personal weaknesses and traded for well over a 1 year. I lost over \$100K. I strongly support limiting leverage to insure no one like has to go through the pain and sufferings that I went through.
