Subject: 'Regulation of Retail Forex' RIN 3038-AC61

RIN 3038-AC61

I am contacting you to express my disappointment in regards of the new proposed regulations of the forex market. I believe each individual trader should have the right to choose its own leverage. I don't need your agency to baby sit me and tell me what can I do or what can't i do. This is a free country, and I am a grown woman. Please let me do what I want with my own money. As you can tell I am very upset. I was very upset with the FIFO rule as well. I moved one of my account over sees because of that. And guess what I made twice as much as money oversees without the FIFO rule . And now you are trying to impose another regulation? Please be reasonable. This is absolutely absurd. If you must make regulations please do it but impose it to the financial institutions that created last year financial crisis. I've been with forex.com for over a year now and I have been successful so far, but you guys making my life very difficult with the FIFO rule and know this??? You are not protecting me, and please stop telling me that you are trying to protect me with these new regulations. You are actually making my life more difficult and YOU ARE HURTING ME, so much that either I have to stop trading for good (because of you) or move my assets to another country. Which is very sad because I am a US citizen, but yet because of your hasty rules now I have to move my assets. What a waist....
Please stop it with all this new rules and regulations. Let me keep my right to choose my own leverage and eliminate the FIFO rule so I can decide for myself when I want to sell or buy multiple positions in the order that I want. I don't need you to tell me that I must close the first position before I close the second one. If I make money with the second order, let me have the right to terminate that position before I terminate the first order.

Thanks
Sincerely,
Tugrul Kalafat
