COMMIT

Dear Chairman Gensler:

It is my understanding that you are the person in charge of the federal government organization empowered to oversee and restrict Wall Street involving the commodities and futures trading. At the beginning of 2011, the Commodity Futures Trading Commission was empowered by Dodd-Frank to further restrict those entities utilizing speculation to manipulate the price of oil and ultimately, gasoline at the pump.

Please carry out Dodd-Frank and diminish speculation at a time when our nation's economy is so severely crippled by it.

Sincerely yours,

Sam Day
