commenter_subject: CFTC proposal and 10:1

commenter_comments: If these proposal
 are made law, you will destroy me and my family's
 ability to earn a living. I have no employment and
 depend on my ability to read charts to make a
 living, something I have worked tirelessly to
 learn. Traders can easily protect themselves
 through the usage of stops. I will be forced to
 move my trading funds to an offshore broker where
 you'll have no jurisdiction anyway. do you really
 think you'll be protecting consumers as they flee
 the country?
