Heard that you are trying to reduce our Forex leverage from 100:1 to 10:1. Who do you think you are? whoever you are, if you are trying to limit us on the leverage, we should NOT pay your salary with our tax. Butt off on my freedom on the leverage. I can be financially responsible myself. We don't need to pay you to parent us. Remember, we are paying tax to pay your salary, if we don't have the freedom to make money, you will be like a dead fish out of water!!! so Butt off!!!!!!!!!!!!
